

Self-collection can help improve access to care and resolution of genital tract infections

Vaginitis and similar genital tract infections (GTI) can lead to serious, long-term health issues. Left untreated, GTIs can lead to

Pelvic inflammatory disease and chronic pelvic pain

Problems in pregnancy (eg, spontaneous abortion, preterm delivery)

Higher risk of contracting HIV

Vaginal self-collection can provide a fast, convenient path to diagnosis and treatment

For patients seeking an alternative to provider administered testing, self-collection provides rapid results without complicating your office's workflow.

Diagnosing symptomatic infections with a self-collected swab

You can now offer patients the option of self-collected testing with Aptima® multi-test vaginal swabs cleared by the FDA for genital tract infections at our Patient Service Centers (PSCs) or at your office.

Convenient for patients

- Easily send orders to nearby PSCs through Quanam®, your practice's EHR, or via manual/printed patient orders
- Patient can go directly to a PSC without needing to pick up the order at your office when you order through Quanam or EHR

Simple processes

- No separate test codes needed
- Step-by-step collection guide helps patient correctly collect their own sample

Accurate and reliable

- Results of the tests are about as accurate as when you do the collection and will be ready upon the patient's follow-up visit*
- Process ensures appropriate follow-up visit with your office for targeted treatment based on exam and lab results

*Coordinate timing with your account representative.

Innovative vaginal self-collection test options

for vaginitis and similar genital tract infections

Test code	SureSwab® Advanced descriptions	Indicated tests	CPT® codes
10016	SureSwab® Advanced Bacterial Vaginosis (BV), TMA	Bacterial vaginosis (<i>Lactobacillus</i> spp, <i>G vaginalis</i> , <i>A vaginae</i>)	81513
10029	SureSwab® Advanced <i>Candida</i> Vaginitis (CV)/ <i>Trichomonas vaginalis</i> (TV), TMA	<i>Candida</i> vaginitis	87481x2
		<i>Trichomonas vaginalis</i>	87661
10119	SureSwab® Advanced Vaginitis, TMA	Bacterial vaginosis	81513
		<i>Candida</i> vaginitis	87481x2
		<i>Trichomonas vaginalis</i>	87661
10120	SureSwab® Advanced Vaginitis Plus, TMA	Bacterial vaginosis	81513
		<i>Candida</i> vaginitis	87481x2
		<i>Trichomonas vaginalis</i>	87661
		<i>Chlamydia trachomatis</i>	87491
10121	SureSwab® Advanced <i>Candida</i> Vaginitis (CV), TMA	<i>Neisseria gonorrhoeae</i>	87591
		<i>Candida</i> vaginitis, <i>Candida</i> species (<i>C albicans</i> , <i>C tropicalis</i> , <i>C parapsilosis</i> , and <i>C dubliniensis</i>), <i>Candida glabrata</i>	87481x2
10123	SureSwab® Advanced Bacterial Vaginosis (BV), CT/NG, TMA	Bacterial vaginosis	81513
		<i>Chlamydia trachomatis</i>	87491
		<i>Neisseria gonorrhoeae</i>	87591
11361	<i>Chlamydia trachomatis</i> (CT) RNA, TMA, Urogenital	Chlamydia	87491
11362	<i>Neisseria gonorrhoeae</i> (NG) RNA, TMA, Urogenital	Gonorrhea	87591
11363	<i>Chlamydia/Neisseria gonorrhoeae</i> RNA, TMA, Urogenital	Chlamydia	87491
		Gonorrhea	87591
16492	<i>Chlamydia/N gonorrhoeae</i> and <i>T vaginalis</i> RNA, Qualitative, TMA	Chlamydia	87491
		Gonorrhea	87591
		<i>Trichomonas vaginalis</i>	87661
19550	<i>Trichomonas vaginalis</i> RNA, Qualitative, TMA	<i>Trichomonas vaginalis</i>	87661
36963	Sexually-Transmitted Infections (STIs) Increased Risk Panel	<i>Trichomonas vaginalis</i>	87661
		Chlamydia	87491
		Gonorrhea	87591
		<i>Mycoplasma genitalium</i>	87563
36965	Sexually-Transmitted Infections (STIs) Pelvic Inflammatory Disease (PID) Panel	<i>Trichomonas vaginalis</i>	87661
		Chlamydia	87491
		Gonorrhea	87591
		<i>Mycoplasma genitalium</i>	87563
91475	<i>Mycoplasma genitalium</i> , rRNA, TMA	<i>Mycoplasma genitalium</i>	87563
