

POWERING AFFORDABLE CARE

Quest Advanced™ Oncology is committed to delivering insights into your patients' health throughout every step of their cancer journey—screening, diagnosis, prognosis, treatment, and monitoring.

Quest is your single-source solution with a comprehensive test menu, over 450 board-certified medical experts and pathologists, leading technology, and committed customer service—delivering the experience of a boutique lab backed by the power of one of the largest labs in the world.

INNOVATIVE SOLUTIONS

enabling a better future for healthcare

As visionaries, we create and invest in innovative solutions to today's problems (eg, 15 new tests, digital pathology, somatic and germline large- and disease-specific gene panels, and liquid biopsy) to power a more promising future.

IMPROVED EXPERIENCES

redefining how you experience diagnostics

With our robust comprehensive test menu of more than 1,100 oncology tests, you can spend your time caring for patients instead of searching for the tests you need.

BETTER OUTCOMES

we make healthier happen

Advanced testing. Accessible expertise. Industry-leading pathologists. We have one of the broadest specialty menus in the industry, along with medical experts available to consult on test results so you get answers you can trust to provide the superior care your patients deserve.

THE RIGHT PRICE

the right price without the trade-off

Your patients deserve answers. We ensure they can access the testing they need by having the most comprehensive insurer access, serving more than 160 million patients annually.

We provide diagnostic insights that fuel action **for every stage of cancer**

With cancer, every sample is precious—**we work every day to maximize the value of the insights from every test and diagnostic procedure.**

POWERING...

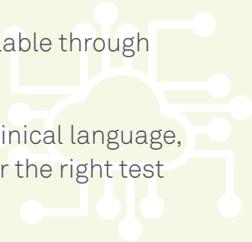

LIMITLESS INNOVATION to build a healthier future

- Our precision medicine approach moves away from “1 size fits all” toward treatment options that consider a person’s molecular profile to power insights that drive the right actionable treatments for each individual patient
 - Our more than 550 oncologists, pathologists, PhDs, and genetic counselors contributed thought leadership and invaluable insights in over 200 peer-reviewed publications such as *JAMA* and *PLOS-One* in 2020 to help advance critical innovations in healthcare
- 

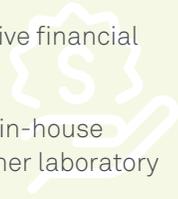

BETTER OUTCOMES driven by quality, technology, and speed

- We believe in the art of medicine in addition to algorithms. That’s why we have over 550 medical experts in oncology alone, with leaders in cancers and other diseases
 - Doing more with less tissue. Quest recognizes every block is precious and employs the advanced technologies to extract the most information per slide so you know more from less
- 

UNBEATABLE EXPERIENCES that redefine how we engage

- Access for test selection and results interpretation consultation is available through our dedicated 1.833.733.1441 oncology client services number
 - Our committed team of oncology account executives, who speak your clinical language, are exclusively focused on supporting you and your staff to help uncover the right test for complex cases
- 

THE RIGHT PRICES for your patients

- We remove barriers to care by improving patient access with comprehensive financial assistance programs and pricing for uninsured patients
 - We decrease unnecessary testing expense through consultation with our in-house medical experts, eliminating the need to send out precious tissue to another laboratory
-
