

POWERING AFFORDABLE CARE

Behind every sample is a life. A life filled with questions. We aim to provide answers. Answers that will help patients move forward with clarity and confidence.

INNOVATIVE SOLUTIONS

Helping you do more for patients

Our goal is to provide insights that fuel action, which is why we continually evolve the breadth of our testing and complement the cutting-edge with the creativity of the human mind, never hesitating to throw formidable resources behind every patient.

IMPROVED EXPERIENCES

Simplifying diagnostic laboratory testing

Whether we're working with patients or providers, accessibility is always our priority. And with testing solutions that lend clarity to complexity, we pride ourselves on reimagining our systems to be more seamless, intuitive, and insightful than ever before.

THE RIGHT PRICE

Delivering testing for all

We are your ally, which means we always work hard to ensure cost never compromises care. And we always make our industry-leading diagnostic tests available to you at the best possible value.

BETTER OUTCOMES

Enabling healthier lives

Every test offers an opportunity to improve a patient's life. That's why we leverage our extensive in-house expertise to empower providers with tools and technology to give patients the answers they deserve.

We provide a wide range of **neurological diagnostic insights that fuel action**

Alzheimer's disease

Developmental delay

Neuroimmunology

Biochemical

Exome with CNV evaluation

Pharmacogenomics

Behind every sample is a life—a life filled with questions.
We aim to provide answers.

POWERING...

LIMITLESS INNOVATION to build a healthier future

- Only Quest Advanced™ Neurology. We offer a complete portfolio inclusive of molecular, biochemical, neuroimmunological, cytogenetics, and pharmacogenomics testing for the diagnosis of neurological conditions
- Our broad menu of over 400 neurology tests, powered by 15 distinct methodologies, provides transformative answers that can end your patient's diagnostic journey

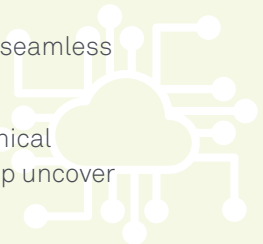

BETTER OUTCOMES driven by quality, technology, and speed

- We believe in eyes in addition to algorithms. That's why we have over 600 medical experts, including leaders in neuroimmunological diseases, who are eager to consult with you on next steps for your patients
- Your patient is our patient. Our Genomic Services team, including neurogenetic counselors, has over 50 years of experience in complex disorders to support you and your patients

UNBEATABLE EXPERIENCES that redefine how we engage

- We interface with over 600 EHR systems—making sure you always have seamless access to ordering and results
- Our dedicated team of neurology account executives, who speak your clinical language, are exclusively focused on supporting you and your staff to help uncover the right test for complex cases

THE RIGHT PRICES for your patients

- We're up-front about costs and offer financial assistance programs because we understand that cost should not be a barrier
- We know that your patients deserve answers. We ensure they can access the testing they need by having comprehensive insurer access, serving more than 160 million patients annually
