

Fast-tracking your **companion** **diagnostics**

From assay development to commercial pre-launch and launch analytic capabilities, we help accelerate your companion diagnostics.

Harmonize your research and development objectives

We leverage powerful insights, reliable data, efficient diagnostics, and rapid results to provide an unparalleled opportunity to target new therapies to the right patient population.

We offer **15+ years of longitudinal lab data**, representing more than **60 billion data points**

Choose your pathway with an in vitro diagnostic (IVD) or laboratory-developed test

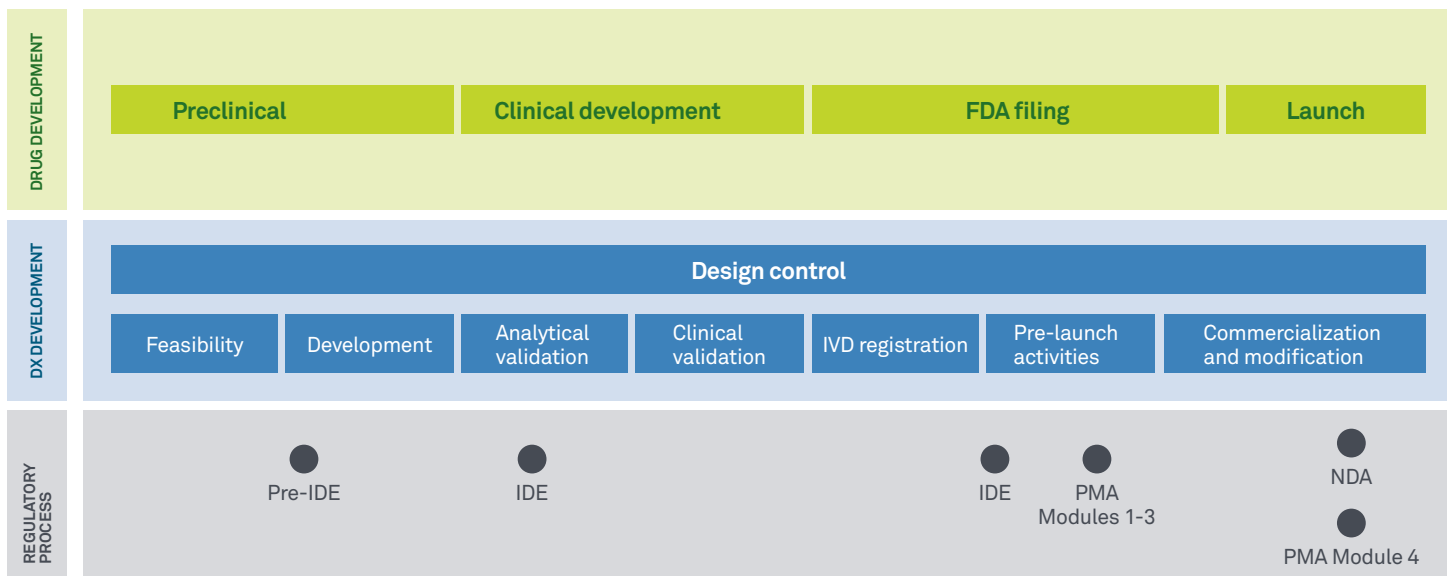

Over **1,200** infectious disease tests

Biologic therapy/
pre-biologic panel

Viral, bacterial, parasitic, fungal

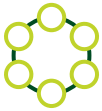

100 infectious disease studies

Vaccine characteristics

Creating **comprehensive solutions together**

Together, we can develop the precise testing to support therapies that can help improve outcomes and reduce costs.

END-TO-END SERVICES

Test development, biomarker identification to support FDA approval, commercialization

PRE-LAUNCH MEDICAL COMMUNICATIONS

Risk Evaluation and Mitigation Strategy (REMS) programs to help comply with FDA requirements

CLINICAL TRIAL WRAP-AROUND SERVICES

Day 1—ready lab for new CDx test launches

COMMERCIAL TESTING

Data analytics support for targeted therapies

ASSAY DEVELOPMENT, VALIDATION, AND SCALE-UP

Custom testing services and targeted-therapy test development

Our analytics bring **precision medicine to life**

Some of our work includes:

- Test development in support of a new class of drugs, such as “checkpoint inhibitors,” that the FDA recently approved
- Immunooncology
- Personalized medicine
- Molecular testing to understand mutation status in diseases such as non—small cell lung cancer

Accelerating development of novel companion diagnostics with **Quest Advanced® companion diagnostics**

Together, we can develop the precise testing and therapies that can provide new hope to patients and their families.

60B+ LAB RESULTS AND GROWING

for an unparalleled data pool that can pinpoint patient populations, physician-specialists, and potential trial partners for your development efforts

UNMATCHED ACCESS TO PATIENTS AND PHYSICIANS

routine, esoteric, and specialty testing for 168 million patients per year with thousands of local service centers across the US and expanding, reaching more than 90% of covered lives, and serving half of US physicians and hospitals annually

ADVANCING THE CUTTING EDGE

through collaborations with leading academic, government, and medical researchers and our own Centers of Excellence in cardiometabolics, fertility, genomic, and oncology
