

# Elevate your patient care with a leading lab partner

When changes cause uncertainty, we are here to help

## Choose Quest for enhanced experiences and innovative testing

Quest Diagnostics is committed to helping you enhance the patient experience and reduce costs, while making it easier for patients to get advanced testing to improve healthcare outcomes. We go beyond test results, working hard every day to simplify the laboratory diagnostic process from start to finish for you, your practice, and your patients.

### Access and flexibility that help close the gap for better health

- In-network for ~90% of insured lives nationwide
- Transparent pricing, financial assistance programs, and low or no out-of-pocket testing costs<sup>a</sup>
- Approximately 2,000 Patient Service Centers, including many retail locations

### Connectivity and technology that simplify the lab experience

- Streamlined workflow through Quantum<sup>®</sup>
- Interface with 920+ EHR systems
- End-to-end smart specimen tracking solution for providers

### Specialty, genetics, and advanced testing portfolio to help optimize care

- 3,500+ tests including solutions for women's health, oncology, infectious disease, and more
- 700 medical experts on staff for consultation
- Advanced diagnostic capabilities, including digital pathology and next-generation sequencing

### Enhanced customer service for a better diagnostics journey

- Support to quickly deploy in-office phlebotomy (IOP) personnel
- Dedicated hotlines for women's health and oncology service specialists
- Preauthorization and pre-/post-test consultation services
