

Working together for a healthier San Antonio

For a city like San Antonio, accessible testing is vital to improving patient health. We work with the medical community to combat chronic conditions and health inequities, supporting physicians and their patients by making testing more affordable and convenient. Deeper insights enable physicians to empower their patients to make healthier choices, even as they fiesta.

You and your patients benefit from:

- 1. Superior access and value—**
with convenient locations and broad health plan coverage
- 2. Superior lab experience—**
with pricing transparency, online scheduling, EMR connectivity, and rapid, reliable turnaround time
- 3. Superior infrastructure, access to expertise, and data-driven quality—**
for greater confidence

1 rapid response lab

20 Patient Service Centers

40B+ patient data points

264 San Antonio employees

With **20 Patient Service Center locations** across the San Antonio area, including select Walmart locations, we can help you meet the diverse testing needs of your patients, offering better access, expertise, and value.

Supporting you and your patients with advanced testing, access, and health plan coverage

For your patients:

Superior access, value, and lab experience
